

# Cottesbrooke Infant & Nursery School

## Accessibility Statement

**At Cottesbrooke Infant & Nursery School, we want everyone who visits our website to feel welcome and able to find the information they need.**

We aim to make our website clear, easy to use and accessible for all of our families. This supports our CUBS values, especially *Caring* and *Understanding we are all equal*.

### Using our website

We have designed our website so that it works well on different devices. You should be able to:

- view pages clearly on a phone, tablet or computer
- listen to pages using a screen-reader
- zoom in to make text larger
- move around most pages using just a keyboard
- find key information quickly using simple menus

### How accessible the site is

We know there are some areas we are still improving. For example:

- some of our older PDF documents may not be fully accessible to screen-readers
- a small number of images may not yet include descriptive alt-text
- older files created before accessibility guidelines were introduced may not meet all standards

We are working to update these over time so that the site continues to improve.

### If you need information in a different format

Please let us know if you need any information from this website in another format such as:

- large print
- audio
- a paper copy
- or help in another language where possible

You can contact the school office:

Email: [enquiry@cottesbrooke-inf.bham.sch.uk](mailto:enquiry@cottesbrooke-inf.bham.sch.uk)

Telephone: 0121 7062742

We will get back to you within 5 school days.

### Reporting a problem

If you find something on the website that is difficult to access, or you think we could improve something, please tell us. We welcome feedback and will always try to help.

### External support

If you are not happy with how we respond to your request, you can contact the Equality Advisory and Support Service (EASS) for further help or advice.

### Technical information

Our website aims to meet the Web Content Accessibility Guidelines (WCAG) 2.1 AA standard. This means it should be accessible to as many people as possible. At the moment, our website is partially compliant because of the areas listed above.
